

# Help Protect Your Baby from Group B Strep (GBS)

*According to the Centers for Disease Control and Prevention (CDC),  
group B strep is the leading cause of sepsis and meningitis  
in a newborn's first week of life*

*partnering with*

*For information on how to help protect your baby from GBS disease during pregnancy through early  
infancy, please visit [www.groupbstrepinternational.org](http://www.groupbstrepinternational.org).*
