

# Help Protect Your Baby from Group B Strep (GBS)

*According to the Centers for Disease Control and Prevention (CDC),  
group B strep is the leading cause of sepsis and meningitis  
in a newborn's first week of life.*

*For information and resources on how to help protect babies from  
GBS disease during pregnancy through early infancy, please visit  
[www.groupbstrepiinternational.org](http://www.groupbstrepiinternational.org)*
